

HARDWOOD PLY

IBS HARDWOOD PLY is a quality decorative wood panel. You can use IBS HARDWOOD PLY for everything from walls and ceilings to furniture and cabinetry.

HARDWOOD PLY

HARDWOOD PLY is a quality plywood with a Hardwood Okoume face and back.

The glue line is a moisture resistant glue line making it ideal for interior use.

It is a non-structural ply, being a Hardwood ply it cannot be treated to H3.2 so is recommended for interior use only.

Manufactured under ISO9001: 2000 conditions and under the European standard that is CE, you are assured of a quality product every time.

IBS is a responsible company that ensure its products come from a sustainable resource and meet the FSC standard.

FEATURES

- Cost effective lining solution
- High quality faces with pre-sanding means a great finish every time
- Light and easy to handle building material
- When clear finished the product gives that rich deep hardwood colour
