

ENVIRONMENTAL PRODUCT DECLARATION (EPD)

IBS V-GROOVE PLYWOOD

Since 1993, IBS has had a focus on providing the best products to help New Zealand build better, along with keeping in mind our impact on the environment and the long-term sustainability of our planet.

The only way to accomplish this is to work together to ensure that we all do what we can to protect our environment. Therefore IBS has come up with the 3 Green Ticks policy for our products.

- ✓ Low formaldehyde emissions (LFE)
- ✓ Manufactured from a sustainable renewable resource
- ✓ Certified for use in NZ

All of the world's ecosystems are based on sensitive cycles and in order to preserve these we focus on ensuring that we source our products from suppliers that share this in their production systems.

IBS can confirm that the products are sourced from a sustainable renewable resource. See our website for certification.

ENVIRONMENTAL PRODUCT DECLARATION (EPD)

IBS V-GROOVE PLYWOOD

Country of manufacture:

Chile

Products used in the manufacture:

100% Radiata Pine

Formaldehyde emissions:

Super E0 Low Formaldehyde Emission
